ABOUT US

VEUS is a heavy-duty parts brand focused on delivering reliable aftermarket solutions for truck and bus applications. Built on Yörtek's industry experience since 2014, VEUS combines practical field knowledge, technical expertise and an engineering-driven approach to meet the evolving needs of the commercial vehicle industry.

Our products are developed with a clear focus on quality, functionality and dependable performance. We understand that heavy-duty vehicles operate under demanding conditions, which is why every product group is approached with attention to application requirements, durability and long-term reliability.

From product development to production, we focus on precision, consistency and continuous improvement. By following market needs and customer feedback, we continuously improve our products and develop solutions designed to support distributors, service providers, fleet operators and commercial vehicle professionals.

Our goal is not simply to expand our product range, but to build a brand that customers can rely on with confidence. With a strong understanding of the heavy-duty aftermarket and a commitment to responsible service, VEUS aims to create long-term partnerships built on trust and performance.

Experience drives us. Engineering shapes us. Reliability defines us.
